**Webinar - Effectively Managing Assets in the UAE**

*"We would like to share our appreciation to Cynthia Trench from Trench & Associates DMCC Legal Consultants for conducting a workshop for our employees on 'Effective Management of Assets in the UAE'. Based on the feedback from our staff, it was extremely relevant and useful. Interactive and engaging presentation style, very clear language for a diverse audience without legal background and opportunity to discuss individual cases made the session a great learning experience.*

*Thanks again for your professional and highly useful presentation. We definitely recommend it to both corporate as well as individual customers who seek advice and support in managing their assets in the UAE."*
